

Improve the Paracentesis Experience for You and Your Patients

Enhances Patient Safety and Satisfaction

Easy on Staff

Cost Effective

Time matters, for you and your patients

Fast, efficient paracentesis procedures with RenovaRP save room time and staff hours, while giving your patients the opportunity to enjoy more of their day.

ONE STUDY SHARED THAT THE HOURLY INTERVENTIONAL RADIOLOGY SUITE RATE AT THEIR INSTITUTION WAS \$539 PER HOUR¹.

SAVING 30 MINUTES WOULD SAVE ALMOST \$270 PER PROCEDURE!

Renova Bags (1 Box) vs. 1L Bottles (x8)

Space is limited!

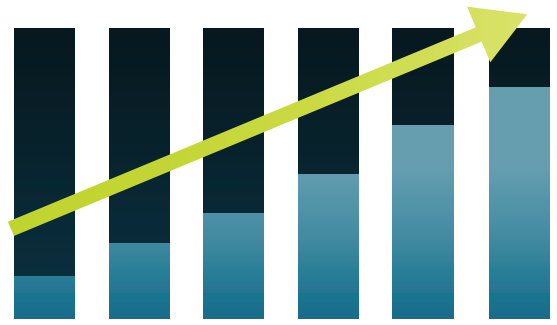

Renova bags store flat to save valuable space and are larger than a standard 1 L vacuum bottle.

Have a case on the floor?

No problem. The shoebox-sized foot print of a box of Renova bags offers easy portability.

Meaningful Reimbursement

The CMS national average payment for image guided paracentesis has increased substantially from \$483 for outpatient hospital-based procedures in 2016 to **\$810** in 2021².

I love our Renova Pump. With Renova, it usually takes half the time to remove the fluid as compared to when we used wall suction. We can give our patients some of their day back since they don't have to be in the hospital as long and they really appreciate it.
